

EDUCATION

KL UNIVERISTY

B.Tech Computer Science Engineering , CGPA : 8.9

July 2022 – Present(May 2026)

SKILLS

- **Languages** Python,SQL, Java, HTML
- **Frameworks** Pandas, Numpy, Scikit-Learn, Matplotlib, Django
- **Core** Artificial Intelligence, Machine Learning, Neural Networks
- **Soft Skills** Adaptability, Attention to detail, Active listening, Problem solving
- **Tools** MySQL, Automation Anywhere, Excel, Powerpoint

WORK EXPERIENCE

AI Intern , Infosys Springboard

I developed Market Maven, an AI tool to help supermarkets optimize inventory through demand forecasting. This project strengthened my skills in machine learning and AI for retail.

Nov 2024 – Dec 2024

ML Intern , SkillCraft Technology

At SkillCraft Technology, I developed models for house price prediction, customer segmentation, hand gesture recognition, and image classification.

Sep 2024 (1 mon internship)

Web Developer , Prodigy Infotech

Designed a responsive landing page, stopwatch app, Tic-Tac-Toe game, personal portfolio, and weather app using HTML, CSS, and JavaScript.

Jul 2024 (1 mon internship)

SalesForce CRM Developer , GERENT

Learnt about the architecture of the Salesforce CRM application & then built a "loan application system" using the tools available in the Salesforce CRM application.

May 2024 – Jun 2024

PROJECTS

Placement Management System

- Built a **Spring Boot app** for managing job applications and placements.
- Included features for candidate tracking and interview scheduling using **Java**.

July 2024 – Dec 2024

Student Admission System

- Developed a **Java-based web app** for student admissions.
- Enabled application submission and status tracking.

June 2024 – July 2024

Face Mask Detection

- Created a real-time face mask detection system using **OpenCV** and **VGG16**.
- Used **Python** to implement live video detection for public safety.

Jan 2024 – Mar 2024

Online Book Store

- Built a **Django**-based online bookstore for browsing and purchasing.
- Added admin controls for managing books and transactions using **Python**.

Dec 2023 – Apr 2024

CERTIFICATIONS

- AWS Cloud Practioner (Feb 2025)
- Multicloud Network Associate by Aviatrix (Jan 2025)
- AI Associate by Salesforce(Oct 2024)
- Red Hat Certified Enterprise Application Developer (Sep 2024)
- Introduction to Machine Learning by NPTEL (Sep 2024)
- Oracle Cloud Generative AI Professional (July 2024)
- Automation Anywhere RPA Professional (May 2024)
- Introduction to Algorithms by NPTEL (Nov 2023)
